### DETAILED ACTION

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claim 7 is rejected under 35 U.S.C. 103(a) as being unpatentable over Austrian reference AT 002 469 in view of Tauzin (US 4,338,863).

The Austrian reference discloses a cableway system similar to that recited in the instant claim except that the structure of the Austrian reference does not have a damping device for damping the mounting of cabin 2 on suspension bar 1.

Tauzin discloses a cableway system that includes a damped bearing provided with damping device 10 for damping the mounting of cable 2 on suspension bar 22.

In view of Tauzin, it would have been obvious to one skilled in the art to provide bearing 3 of the Austrian reference with a damping device, similar to that taught by Tauzin, so as to improve passenger comfort and reduce noise.

3. Claims 1-6 are allowable.
4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Applicant should further consider the structures of Katayose, Whitcroft, Gerhard, and Tremary.
